

# Connect Communicate Collaborate

Transform your organisation  
with Promethean's interactive  
collaboration solutions

# Promethean—your trusted partner in interactive collaboration solutions

Promethean is a world leader in interactive collaboration solutions. Our innovative technology – interactive whiteboards, software, audience response systems, and interactive tools – are designed to support communication, collaboration, creativity and learning.

Our technology has proven to increase instructional results in education, revolutionising the way the world teaches, learns and interacts. We support new ways of advancing your organisation – and empowering your employees to be innovative, increase collaboration and work more efficiently.

## PRODUCTIVITY

- Engage any audience with a large, visual, interactive whiteboard
- Share ideas and review documents in real-time
- Interact with any business application running on your computer
- Improve effectiveness over distance

## COLLABORATION

- Collaborate and share digital content to make decisions faster
- Support interactive, virtual collaboration
- Works with web, video and telepresence solutions
- Give more impactful customer presentations

## TRAINING

- Engage all types of audiences
- Improve trainer effectiveness
- Encourages everyone to participate
- Accelerate training and assessments

## Enhance collaboration

**With our interactive technology as the focal point of a meeting or training session, audiences are more attentive and engaged.** Employees can share complex ideas, review schematics, drawings, or multimedia on a large, visually engaging interactive whiteboard.

The ActivBoard allows team leads, project managers and other facilitators to work in a more intuitive and efficient way to collaborate and communicate ideas. And our interactive software makes it simple to capture notes, ideas and information digitally. You can instantly save and distribute everything to all team members keeping everyone up to date on important information.

Share complex ideas, review schematics, drawings or multimedia on a large, visually engaging interactive whiteboard.

Work more efficiently while also enhancing innovation flexibility and speed to market.

## Train more efficiently

**Successful businesses and government organisations are focusing more on training because the workplace is fast-paced and constantly changing.** Technologies change. Markets change. Regulations change.

Audience response systems are the ultimate collaboration tool to gauge comprehension and confidence during training or presentations. Trainers and facilitators can easily customise the level of instruction based on real-time responses from the audience. The software records the results for immediate review or stores it securely to easily issue reports and measure performance over time.

Promethean audience response systems help keep everyone engaged and encourages 100% participation during training, meetings or focus groups. Choose ActivExpression hardware devices or ActivEngage software that works on your existing laptops or mobile devices.

Accelerate your employee training and increase participation with ActivExpression, ActivEngage and interactive tools.

Use your existing web or video conferencing solution.

## Increase productivity

**Companies and governmental organisations worldwide are striving to control costs while continuing to innovate.** One of the most effective ways to do both is through rich, interactive collaboration among colleagues—whether they are within an office, across town or around the world.

Our interactive collaboration technology makes it easy to keep everyone involved: exchanging ideas, participating in interactive presentations, reviewing documents, idea generation and contributing to projects in real time. A distributed workforce can take advantage of our interactive collaboration tools from practically anywhere with an Internet connection.

## Reduce costs

**Promethean offers a range of cost-effective solutions that are easy to use anywhere within an organisation.**

Knowledge workers in the same group are often spread across multiple locations and great distances. By seamlessly connecting staff, partners or even customers across any distance, Promethean's business solutions save valuable time and money, while also promoting engagement and collaboration.

At Promethean, we design our interactive collaboration solutions for organisations that understand a strategic investment in the right technology can help reduce costs and improve employee efficiency and productivity.

# Promethean Interactive Solutions

Promethean offers a fully integrated range of interactive technologies to help enhance collaboration, increase productivity, train more effectively and reduce costs.

## INTERACTIVE WHITEBOARD SYSTEM

### ActivBoard System

A large interactive whiteboard powered by a computer and front projection to engage the audience.

The ActivBoard systems are offered in a range of configurations (fixed or mobile) and sizes (78", 87", 95" widescreen) to accommodate any environment.

## INTERACTIVE SOFTWARE

### ActivInspire

Award-winning software that sets a new standard for interactive presentations making presentation development easy and engaging for today's multimedia-savvy audience.

### Promethean ActivOffice

A plug-in for Microsoft® PowerPoint® that allows annotation over PowerPoint slides and the ability to save notes captured during the meeting.

## RESPONSE SYSTEMS

### ActivExpression

Hand-held collaborative presentation and learning tool that maximises audience response options using words, numbers, symbols, rating scales and more.

### ActivEngage

Cross-platform audience response system works on desktops, laptops or mobile devices.

## INTERACTIVE TOOLS

### ActiView

A visual presenter that allows the details of an object or document to be shared with the whole group.

### ActivPanel

A 21-inch LCD mini-board plugs into a computer and uses a pen-like stylus to control the software and project your actions onto any-size screen, so you can address the audience without turning your back.

### ActivSlate

Wireless notebook-sized tablet that lets you control the ActivBoard during meetings or presentations from any location in the room while addressing the audience.

### ActivSound

An audio solution that ensures everyone can hear and be heard.
