

ActivTable

INTERACTIVE TOOL

ActivTable. Working together, learning together, achieving together.

The ActivTable, with its 46-inch HD LCD touch sensitive display, is an interactive table designed to facilitate collaborative learning and problem solving activities, while empowering teachers to differentiate instruction. A dynamic learning environment that builds important 21st Century skills such as communication and critical thinking, the ActivTable encourages students to lead their own learning with inclusive activities that drive creativity and consensus decision-making.

Why ActivTable?

Drive participation — Easily differentiate activities to create a flexible, inclusive learning environment for students of all comprehension levels. Chair and wheelchair accessibility enable every student to participate.

Increase student engagement — Create new and extended learning opportunities with exciting multi-touch and multi-user activities and content.

Cultivate lifelong skills — Challenge students to understand different perspectives and develop higher-order reasoning and problem-solving skills by fostering collaboration in the classroom.

Personalise instruction — Divide the classroom into groups based on level of comprehension and learning styles and utilise the ActivTable as a learning centre for small group instruction.

ActivTable

Collaborative Small Group Learning

Designed to engage learners aged 4 to 11, the ActivTable enables flexible opportunities for collaboration;

- from 1 to 6 learners collaborating on activities
- supports special needs and inclusion
- several ActivTables in the same room allow everyone in class to participate in activities at the same time

Intuitive multi-touch, multi-user interface to allow users to get started straightaway

A wealth of included activities aligned to curriculum standards

Learner Tools including web browsers and virtual keyboard within an Activity

Easy to set up and customise users and activities

An Intuitive and engaging learning solution

ActivTable Activities

ActivTable includes over 70* collaborative learning activities for learners and aligned to US and UK core curriculum standards. Many of the activities are customisable* and allow the teacher to adapt activities to meet different learning objectives. Additional activities will be available in future from ActivTable Activity Store and Promethean Planet. An overview document of all current activities and an ActivTable Specification Sheet is available at:

www.PrometheanWorld.com/ActivTable

**40 activities included prior to Oct 2012. Additional activities available via ActivTable Activity Store from October 2012. A Content Wizard, available in October will allow users to customise many of the activities.*

Dynamic and easy to use learner tools

Over 30 learner tools are included to drive learner engagement; web browsers (up to 6 can be opened at the same time), virtual keyboards, picture editing tools, mathematical tools and even an image and sound bank. Just imagine the possibilities!

Activity Reporting and Tracking tools

Not only can you differentiate activities for different learners, but you can also easily track learner contributions. At the touch of a button, learners can send their work to the teacher and you will easily see who has contributed, how much time they have spent on the activity, what tools were used and much more. Reports can be shown in ActivInspire or exported as a PDF document.

Tough, mobile and integrates with your ActivBoard

The ActivTable is durable and easily mobile as it is mounted on lockable castors. The ActivTable can also be connected to an ActivBoard for the whole class to see!
