

SMART Room System™ for Microsoft® Lync®

Transform meetings with this fully-integrated, turnkey solution that combines touch-enabled displays with an HD video camera, microphones and speakers.

An integrated solution

All components are manufactured by SMART, meaning they work together seamlessly, so you can too.

Natural collaboration

With the intuitive features of SMART's interactive displays, meeting participants collaborate by naturally interacting with content.

A right fit for any room

Available in three sizes, the SMART Room System also offers options for single and dual displays.

A more effective way to collaborate using Microsoft Lync

Commercial-grade, touch-enabled flat panel display

The unrivalled touch experience lets you switch between a pen and finger, or erase with your fist, all without having to select on-screen tools.

Wide-angle video camera

The HD camera displays the entire room and adapts to virtually any lighting condition.

Immediate startup

The display uses Proximity Detection to turn on when you walk into the room. And you can start your meeting by pressing one button.

Optional wall stand

Avoid the need for wall reinforcement and simplify cable management with the integrated raceway.

Administrative console

Switch between presenters, change the configuration of data and video and move between presentation and whiteboard content.

Microphones and integrated audio

Up to 5 tabletop microphones can be connected ensuring dispersed coverage and conference grade speakers offer high quality sound.

The SMART Room System includes

- ✓ SMART Board interactive displays
- ✓ Camera
- ✓ Table microphones*
- ✓ Speakers
- ✓ Console
- ✓ Appliance PC
- ✓ Wall Mount
- ✓ Wall Stand (Optional)
