

# SMART Meeting Pro™ 4.0 software

This powerful visual collaboration software allows users to create and capture ideas in the virtually unlimited interactive Unbound Workspace, as well as make notes over any available application, keep meetings organized and easily communicate outcomes.

## Unbound Workspace

Bring ink, images, hyperlinks, text notes, and other content into the virtually unlimited collaboration workspace. Pan in any direction (without limitation), zoom in and work with the details or zoom out to see an overview.

## Multi-Display Capability

In a multi-display setup, each display can view the same collaboration workspace with real-time annotation across up to 16 displays.

## Enhanced Interaction Performance

Interacting with content is smoother and more natural and the software supports larger files than ever before in the Unbound Workspace.

## SMART Ink 1.5

SMART Ink automatically enables you to write in any application window.

# Key Features

## Unbound Workspace

Bring ink, images, hyperlinks, text notes, and other content into the virtually unlimited collaboration workspace. Pan in any direction (without limitation), zoom in and work with the details or zoom out to see an overview.

## Radar View

Keep a maps-style overview of your content that shows your current location and content that is outside of your current view, as well as navigate to different areas of your workspace.

## Multi-Display Capability

In a multi-display setup, view the same collaboration workspace with real-time annotation across all views on up to 16 displays (running from a single computer). You can work on a zoomed-in detailed view while keeping the zoomed-out contextual view on a separate connected display.

## Organizer

Control which content appears on which screen to ensure you get the most out of your multi-display setup.

## Enhanced Interaction Performance

Interacting with content is smoother and more natural and the software supports larger files than ever before in the Unbound Workspace.

## Schedule Awareness

Combined with Microsoft® Exchange®, SMART Meeting Pro™ reads meeting invitations to automatically start the meeting when you log in. It loads your agenda, attendee list, links included in the meeting invite and any attached documents. Use the embedded links feature to bring SharePoint® documents into your meeting.

## Bridgit® conferencing software

SMART Meeting Pro will automatically create and start your Bridgit meeting (server license required), so you can save time and get started right away.

## Unified Communications Flexibility

When used with distance collaboration software like Bridgit conferencing software (as well as Lync and WebEx) remote participants can contribute their notes and ideas.

## Customizable Business Gallery

Build out customized Business Galleries using your company's templates. Organize your custom galleries using custom folder names and export them for deployment and use with other SMART Meeting Pro installations throughout your organization.

## SMART Ink 1.5

SMART Ink automatically enables you to write in any application window.
